AFM-2.1 The accounting system of the Gulf Consortium shall designate a project number for all direct expenses associated with each specific project.

AFM-2.2 All recorded costs entered into the Gulf Consortium's accounting system shall be classified as either allowable or unallowable costs, in accordance with 2 CFR part 200.403.

AFM-2.2.1 Determination of allowable or unallowable costs is the responsibility of the Finance Manager.

AFM-2.2.2 Actual expenditures or outlays shall be compared to budgeted amounts for each grant

AFM-2.3 Allowable costs shall be tracked against specific grant budgets.

AFM-2.4 Unallowable costs shall be tracked against Gulf Consortium budget.

AFM-2.5 The Finance Manager will ensure that sufficient funding exists for all costs incurred prior to approval for payment.

AFM-3. TRACKING OF DIRECT COSTS

AFM-3.1 Direct costs shall be defined in accordance with 2 CFR § 200.413, as those costs that can be identified specifically with a particular final cost objective, such as a Federal award, or other internally or externally funded activity, or that can be directly assigned to such activities relatively easily with a high degree of accuracy.

AFM-3.2 Costs incurred for the same purpose in like circumstances must be treated consistently as either direct or indirect facilities and administration (F&A) costs. See also 2 CFR § 200.405, Allocable costs, and 2 CFR § 200.412, Classification of costs.

AFM-3.3 Identification with the Federal award, rather than the nature of the goods and services involved, is the determinative factor in distinguishing direct from indirect (F&A) costs of Federal awards. Typical costs charged directly to a Federal award are the compensation of employees who work on that award, their related fringe benefit costs, and the costs of materials and other items of expense incurred for the Federal award. If directly related to a specific award, certain costs that otherwise would be treated as indirect costs may be treated as direct costs, including extraordinary utility consumption, the cost of materials supplied from stock or services rendered by specialized facilities, or other institutional service operations.

The salaries of administrative and clerical staff should normally be treated as indirect (F&A) costs. Direct charging of these costs may be appropriate only if all of the following conditions are met:

1. Administrative or clerical services are integral to a project or activity;
2. Individuals involved can be specifically identified with the project or activity;
3. Such costs are explicitly included in the budget or have the prior written approval of the Federal awarding agency; and
4. The costs are not also recovered as indirect costs.

AFM-3.4 Minor items. Any direct cost of minor amount may be treated as an indirect (F&A) cost for reasons of practicality where such accounting treatment for that item of cost is consistently applied to all Federal and non-Federal cost objectives.

AFM-3.5 The costs of certain activities are not allowable as charges to Federal awards. However, even though these costs are unallowable for purposes of computing charges to Federal awards, they nonetheless must be treated as direct costs for purposes of determining indirect (F&A) cost rates and be allocated their equitable share of the non-Federal entity's indirect costs if they represent activities which:

1. Include the salaries of personnel,
2. Occupy space, and
3. Benefit from the non-Federal entity's indirect (F&A) costs.

AFM-3.6 For nonprofit organizations, specific rules apply. See 2 CFR 200.413(f).

AFM-4. TRACKING OF INDIRECT (F&A) COSTS

AFM-4.1 Indirect costs shall be defined in accordance with 2 CFR § 200.414, which refers also to “F&A” or Facilities and Administration costs. Indirect costs are those that have been incurred for common or joint objectives. These costs benefit more than one cost objective and cannot be readily identified with a particular final cost objective without effort disproportionate to the results achieved. After direct costs have been determined and assigned directly to Federal awards and other activities as appropriate, indirect costs are those remaining to be allocated to benefitted cost objectives. A cost may not be allocated to a Federal award as an indirect cost if any other cost incurred for the same purpose in like circumstances has been assigned to a Federal award as a direct cost.

1. “Facilities” is defined as depreciation on buildings, equipment and capital improvement, interest on debt associated with certain buildings, equipment and capital improvements, and operations and maintenance expenses.
2. “Administration” is defined as general administration and general expenses such as the director's office, accounting, personnel and all other types of

expenditures not listed specifically under one of the subcategories of “Facilities” (including cross allocations from other pools, where applicable).

3. For nonprofit organizations, library expenses are included in the “Administration” category; for institutions of higher education, they are included in the “Facilities” category.

AFM-4.2 It is not possible to specify the types of cost which may be classified as indirect (F&A) cost in all situations. Identification with a Federal award rather than the nature of the goods and services involved is the determining factor in distinguishing direct from indirect (F&A) costs of Federal awards. However, typical examples of indirect (F&A) cost may include depreciation on buildings and equipment, the costs of operating and maintaining facilities, and general administration and general expenses, such as the salaries and expenses of executive officers, personnel administration, and accounting.

AFM-5. FEDERAL AGENCY ACCEPTANCE OF NEGOTIATED INDIRECT COST RATES

AFM-5.1 Subrecipients may have a Negotiated Indirect Cost Rate (NICR) with the Federal awarding agencies. State and local governments generally will have an Indirect Cost Rate with the Federal government. Classification of NICR costs shall ensure compliance with specific grant requirements, if applicable.
